

Timing transponder

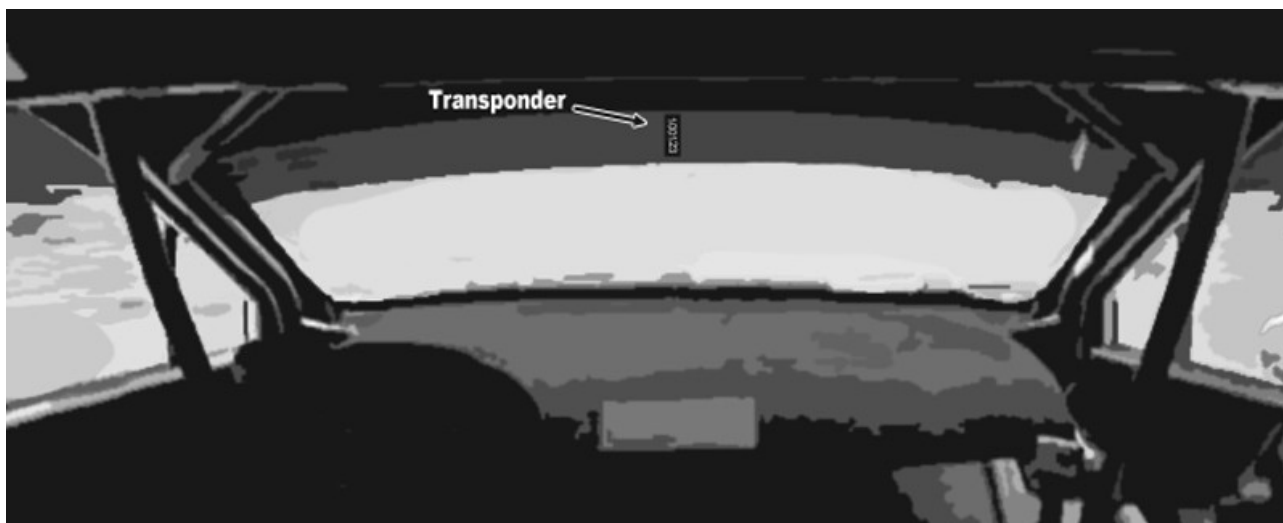

Timing transponder is used for event's official timing. The use of transponder doesn't require much from competitors, just follow these steps:

- **Receive transponder at paper check**
- **Turn transponder on and install to race car before scrutineering.**
- **The led-light may be blanked with tape if necessary**
- **At the end of Leg 1, leave transponder at its place in the car. It will shut down automatically, and needs to be put back on in the beginning of Leg 2.**
- **If you retire friday but will continue in the Super Rally, keep the transponder in the car.**
- **The transponders are returned at TC in event Finish. In case of retirement, please return the transponder with the retirement notice to an official. If competitor fails to return the transponder, a fee of 200,00€ is charged from the competitor.**

Starting and installing the transponder

The transponder has one button and a led light. By pushing the button transponder turns on, and led light starts to blink slowly.

Transponder is installed with the supplied sticker inside the car to middle of windscreen as shown on the image. **Do not attach transponder to roll cage.**
